## BIRST

### SENIOR FRONT END ARCHITECT

MAY 2013 to PRESENT

I am building a new rich and modern user interface for our business intelligence application using AngularJS and other front-end technologies. In addition to creating the application and implementing code quality standards, I am responsible for the structure of the application and unit testing.

## DIMENSION DATA / XIGO

### FRONT-END WEB DESIGNER

AUG 2011 to MAY 2013

Working closely with the CTO, Product Managers, VPs, and several development teams, I was responsible for designing and refactoring front-end code for several enterprise .NET telecom expense management web applications using JavaScript, HTML, and CSS.

## VISCIRA

### HTML5 / JAVASCRIPT CONSULTANT

JAN 2012 to MAR 2012

This position involved creating interactive HTML5 based iPad applications in front-end technologies such as JavaScript and CSS3.

## XINET

### DEVELOPER / SYSTEMS ADMIN

NOV 2002 to AUG 2005

This position included front-end development, back-end development, systems administration, business research, accounting, and customer relations.

## FREELANCE

### MUSIC PRODUCER / SOUND ENGINEER

JUL 2007 to AUG 2011

I worked closely with musicians to record, edit, and mix their songs. I made use of digital audio workstation software expertise, as well as composition, production, and arrangement experience.

## FREELANCE

### MUSIC EDUCATION

MAR 2007 to AUG 2011

I taught fundamental music skills to hundreds of students, while refining successful communication skills and effective teaching methods.

## NORTHERN ILLINOIS

### BACHELOR OF MUSIC, JAZZ PERFORMANCE

AUG 2005 to MAY 2009

My primary study was jazz guitar performance, with additional emphasis on audio engineering, composition, and music pedagogy.
